

## Dreams, Hopes and Prayers

Research shows that freeing up our imagination to create a vision of a better future, inspires and enables action, actually making positive outcomes far more likely. \*

### Dreams, Hopes and Prayers

Imagining can be the first step to creating a better future

Take a photo or scan this document when complete and email it to [environment@cofe-worcester.org.uk](mailto:environment@cofe-worcester.org.uk).

The **Dreams, Hopes and Prayers** project is an invitation to:

- Imagine what our communities could be like, if we took big steps to make things better. Maybe imagine a child in our future community. Where would they play? What might they see, hear, smell, taste or learn?
- Draw pictures or write words within the circle, to capture your dreams, hopes and prayers.
- Gather together the 'dream catcher' circles as part of a Climate Sunday service. A display could help people think beyond today's news and develop a community vision. Use the project to help with planning and as a starting point for action.
- Please share copies of your circles with the Diocese, so we can build a shared vision in our area. [environment@cofe-worcester.org.uk](mailto:environment@cofe-worcester.org.uk)

**RESOURCES:** Everyone is welcome to access further information and the circle template on the Diocesan website. [www.cofe-worcester.org.uk/dreamhopepray](http://www.cofe-worcester.org.uk/dreamhopepray)

\* Book: **'From What Is to What If?'** by Rob Hopkins (creator of Transition Towns)

Climate Sunday has resources for environment themed services [www.climatesunday.org/](http://www.climatesunday.org/)

**Just now we have the chance to think big, be brave and do things differently.**

Taking part in a 'Dreams, Hopes and Prayers' project could lead to many different actions within:

- **Eco Church** (for churches <https://ecochurch.arocha.org.uk/>)
- **Creation Care** (for households <https://creationcare.org.uk/>)
