

Are you interested in working with us to  
eliminate homelessness in  
Worcestershire?

## We have Trustee Vacancies

**MAGGS overarching vision and purpose is “to work with partners to eliminate long term rough sleeping in the county, whilst offering homeless and vulnerable people opportunities to thrive and realise their full potential”**

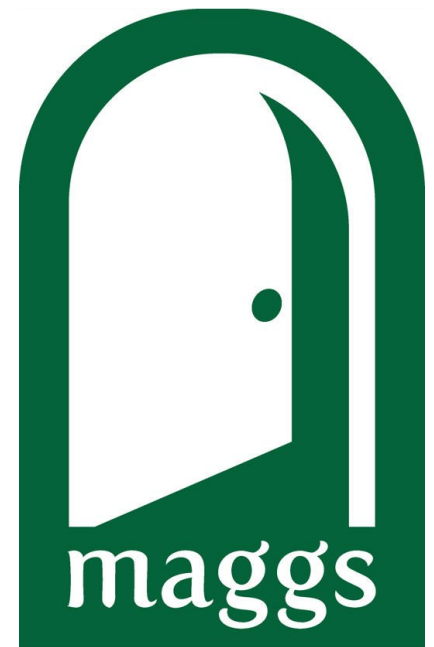

**MAGGS is growing and we are developing our services to achieve this vision.**

We are interested to hear from people with a wide range of knowledge, skills and the energy to help us take our Vision forward. We are also very interested to extend the diversity of our Board.

You may have direct experience of working with homeless people or none; you may have previous experience of being a Trustee or none. What you will have is a keen interest and a desire to make a difference.

**We would welcome expressions of interest from people who can bring..**

- Experience of financial and accounting systems with a view to taking on a Treasurer role
- Leadership/organizational development experience with a view to filling the role of Chair
- Experience of establishing/managing supported housing schemes
- Experience of marketing and IT or digital systems
- Maybe you have experienced homelessness in the past and want to use that experience to build services for homeless people now

For more information please  
email or telephone

Kerry Wilson on
